Dear Ms. Nowak,

Thank you so much for your kind attention to our campaign. It is wonderful to know of your efforts with LED in particular.

Concerning the Canidrome, yes, should we succeed, 700 greyhounds will get the second chance they have been waiting for!

Your pledged gift is wonderful. Please use the GivingGrid for the campaign to make your intended donation. It is here: <http://www.grey2kusa.org/closethecanidrome/>

If you prefer, you may also use any of our usual secured donation links here:

Hello Ms. Dorchak,

We were touched by your appeal for help to close the Canidrome in Macao, and save the 700 greyhounds present there.

We are a small association for the defense of greyhounds, which was created in November 2014 and called "Aide aux Lévrier Martyrs". Our association is now working in partnership with the association LED ("Lévrier en Détresse").

Our main tasks are to collect donations, sell objects manufactured by our members and communicate on abuse of greyhounds.

We also try to get out of galgos martyred in Spain, and save the exploited and mistreated greyhounds in races in Ireland and the United Kingdom, placing them in adoptive families.

Our means are limited, but we wanted to help your great work by making a \$ 100 donation. We remain at your disposal for any support you would wish.

The President

Therese Nowak
